

## **The Village At Mountain Ridge Supports CINQ**

The Village at Mountain Ridge HOA has assisted a grass-roots citizens group, Citizens Involved in the Northwest Quadrant (CINQ) to oppose the proposed toll road (Jefferson Parkway) in northwest Jefferson County, north-east of Golden. CINQ supports the conservation of the unique character, historic, and natural values of Mountain Ridge, Golden and Jefferson County. CINQ opposes the toll road because there is no demonstrated need, and the road is a tool to primarily promote private development. Instead, CINQ supports widening existing public roads including SH93 and Indiana/McIntyre to 4 lanes, and other improvements. Several studies over the last 20 years clearly demonstrate widening SH93 and Indiana/McIntyre best relieves congestion, increases mobility and costs much less to construct when compared to the cost of a private toll road. CINQ opposes tax subsidies to build this private toll road, and CINQ opposes control of the toll road by a foreign company. Learn more by visiting [www.GoTheBetterWay.org](http://www.GoTheBetterWay.org) or contacting Village at Mountain Ridge resident and CINQ President, Rob Medina 720.261.2058 or [Rob Medina \(info@gothebetterway.org\)](mailto:info@gothebetterway.org)

### **CINQ's Strategy**

CINQ is a transportation advocacy organization established to influence the opinions of government and citizens on the proposed Jefferson Parkway toll road. CINQ is active in initiating public relations efforts with individuals, organizations and elected officials. CINQ urges Mountain Ridge residents to learn more and get involved.
